Dan's Deep Thoughts

Customer service drives everything we do here at the bank. We couldn't deliver our personal brand of service without some amazing people, and this month we'd like to recognize some of our longest tenured staff as they transition to retirement.

As you know, Elly Tienter retired after nearly 38 years with us, and now Eileen Haugerud is planning to retire as she approaches the end of her 40th year with us. That's 78 years of institutional knowledge that we're losing and need to replace—how do you do that?! Well, it's not easy. But what would work and life be without challenges? This certainly keeps things interesting!

Those two wonderful ladies certainly deserve the opportunity to do something other than slide their keys in the door of the bank almost every weekday morning—we'll miss them and wish them well.

Daniel M. Christianson
CEO & Chairman of the Board

Have You Heard Of Plogging?

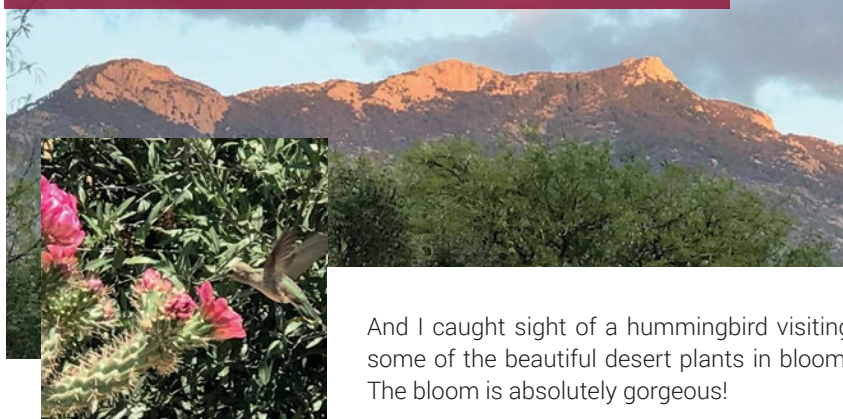

And Other Fun Ways To Start Your Summer!

by Dan Christianson

OK, so how many of you have heard of “plogging”? Well, me neither, until I saw it referenced around the time of Earth Day in April [u]. Apparently, the term was coined in Sweden and is used to describe picking up trash while jogging. I've been doing this for years when I've been out walking or running. I didn't know it had a name—I thought it was called picking up litter! So if you're out and about on these nice summer days, I'd encourage you to participate in plogging to tidy up your community!

So I've been plogging for years, but I just had my first experience when it comes to rock climbing. Tami and I traveled to Arizona in early May, and I learned how challenging this sport can be (I also learned how scraped up you can get doing this while wearing shorts). Carryn, George, and Jarad all rock climb so now I'm hoping to tag along with them sometime. That is if Carryn lets me—she tells me I'm not flexible enough to be very good. At least she didn't tell me I'm too old to be doing that stuff—which is what my mom told me!

A view during dinner of the sun setting on the Catalina Mountains.

And I caught sight of a hummingbird visiting some of the beautiful desert plants in bloom. The bloom is absolutely gorgeous!

May also included getting to see the legend Tony Bennett perform—what an unbelievable performer for 91 years of age! Tami, my sister, Jan, and I took our mothers, and Tami's cousin, Roxie, joined us. What a great opportunity to see Tony Bennett on his (supposedly) last tour!

Giving Goes A Long Way

F & M Teaming Up With Gift of Life Transplant House

by F & M Staff

F & M employees will be providing and serving dinner for the guests at the Gift of Life Transplant House in Rochester on Tuesday, July 24th [o].

Give back with us! Gift of Life Transplant House is always in need of supplies for their guests. If you would like to drop off an item from the list below you are welcome to do so at any F & M Bank location any time before Monday, July 23rd.

Every Friday in May, employees of F & M dressed in jeans and donated money or items from the list below for the residents of the Gift of Life Transplant House. F & M Community Bank matched the employees' donations.

The Gift of Life Transplant House is in need of the following supplies:

- Paper towels
- Paper napkins
- Forever postage stamps
- Ziploc bags, assorted sizes
- Liquid hand soap – large refill bottles
- Liquid dish soap
- Hand Sanitizer Refills
- Regular & Decaffeinated Coffee
- Wrapped candy, especially chocolates
- Scrubbing Bubbles
- Soft Scrub – Lemon
- Toilet Bowl Cleaner

Monitory donations will be used towards the \$30.00 a day stay for the guests.

A special thank you to our Summer of 2018 community partners:

Aspiring Youth Inspire Our Community

Chatfield FFA Inspires Us To Aim High

Our CHATFIELD FFA won the Superior Chapter Award yesterday at the Minnesota State FFA Convention. #1 Chapter in the state! The kids were very excited about receiving this, they have put a lot of work in over the years and finally made it to the top [I]. This is the 4th year in a row that we have been in the top 10, something for them to be proud of.

Local Student Makes MN Honor Society

Tedon Zimmerman, son of Cindy (and Chris) Zimmerman from our Chatfield Branch, was recently chosen to be a member of the Minnesota Honor Society. He just completed his sophomore year at Chatfield High School.

He is active in basketball, baseball, band, is a Sunday School volunteer, and volunteers for various Youth Group community projects such as: roadside trash pickup, raking leaves, food drives and fundraisers.

Chatfield FFA chapter members after winning the Superior Chapter Award for the 4th year running, honoring them as the #1 FFA Chapter in the state of Minnesota. Congrats students!

Tedon was chosen after his application was reviewed and selected by a teacher committee. Students who are a member of the Minnesota Honor Society must have a GPA higher than 3.5, must be a sophomore, junior or senior and must participate in extra curricular activities. Congratulations Tedon!

Alyssa (Christianson) Wray, husband Dave Wray, and kiddos Nick and Mia take in a sunny early season Twins game at Target Field.

Preston's Point Of View

Take One Pill With Water

Humor And Wellness Go Hand-In-Hand

by Chuck Aug

I am reaching the age where I need a little assistance in keeping my body at its best. In addition to making the morning trek to Fit Express five days a week, I have a small lineup of bottles in my bathroom cabinet. Much of this is the result of having a nurse for a spouse. She has prescribed baby aspirin to avoid clots, daily vitamin (for men) to supplement my lacking diet, fiber pill to ensure a successful bathroom visit. To round out this lineup, I have a doctor prescribed pill to reduce the "bad" cholesterol and increase the "good" cholesterol (seems confusing) [h]. I refer to all these bottles lined up in my cabinet as "soldiers". By the time I have taken all of these pills in the morning, I hardly have room for breakfast.

So, lining up the soldiers and asking each for my pill is part of my morning routine. The other morning, I was in the midst of taking my pills. I was working on the blue one's bottle (good and bad pill) twisting the cap off. Now, for some unknown reason it has been in the back of my mind for years that it would probably be a good idea to keep the toilet lid closed when one has a small bathroom such as mine. Well, I should have listened.

As I was twisting the cap of my doctor prescribed pills, I fumbled and the bottle fell into the toilet and with it all the pills. And the cap was still in my hand. As I stared into the toilet, several thoughts went thru my mind. It was clean water. The pills are meant to be taken with water. The Five Second Rule. Nobody watching me. And before I could make a poor decision, the pills upon getting wet began to dissolve and all stuck together.

My next thought was, in today's environment concerning prescribed drugs, are they going to fill my prescription well before the refill date? Somehow, saying "Well, Doc, I accidentally dumped them in the toilet" seemed weaker than telling him my dog ate them. But in the end, I had two things working to my advantage. First, there is very little demand on the street for a "good and bad" cholesterol pill. Secondly, I have had the same doctor for thirty years and he found the story very believable.

To good health!

Staff and friends from F & M attended the 1st Annual Give for Good Gala on May 11th benefiting the Rochester Area Foundation's Better Communities Fund. (In order from L to R: Brian and Alison Poch, Tamsen Leimer, Dan Christianson, Vonnice and Chuck Aug, Gwen and Dave Oeth.)

Aberg's Acre

by Brian Aberg

John Deere is celebrating 100 years of manufacturing tractors this year (and no, I did not buy the first one off the assembly line!). I do however have a 1954 John Deere 50 which my dad purchased new when I was 2, so you do the math! This spring I was glad that I had other tractors to use because the best I could do was to limp this one around the yard only running on one cylinder.

I am lucky that I have some nice neighbor boys that like 2-cylinder tractors and will know how to get the old "50" back to 28 drawbar horse power. I wonder if they could cure *my* limp and get *me* back to full drawbar power? I have to mention my granddaughters Kaylin (3), Lillie (9 mo.), and Hattie (3). Don't they look like they are ready for some summer fun? New swing sets for the girls this year, which should make for some happy summer days! Hopefully John and Justin can enjoy a relaxing day of assembling!

Have a safe and fun summer.

DID YOU KNOW?

John Deere is celebrating 100 years of manufacturing tractors this year. Pictured is Brian's 1954 John Deere 50 Model, originally bought by his father.

Summit Club

Warm Weather Gets Us Out And Moving

Hello summer.... finally! It's been a long winter and the last round of storms were certainly not welcome! Even so, we've had a busy start to the year and have a lot to share with you in 2018!

In March, we attended a conference in Branson, MO with Heritage Clubs International and met other bank club directors and Preferred Tour Operators [s]. This allowed us to do a lot of networking with other directors, finding out how they operate their bank travel clubs along with other tips and tools. We brought back with us a lot of trip ideas we are anxious to share with you!

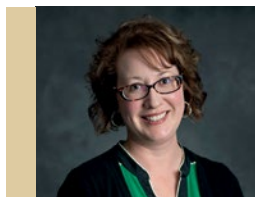

In April, we hosted a pre-concert meal at the Chatfield Center for the Arts before Pet Sounds: A Beach Boys Tribute concert. We enjoyed our time with you, so look for us to do this again soon! On the 29th we traveled to the Orpheum Theater to see Jersey Boys. What a phenomenal show; great story and awesome music and entertainers!

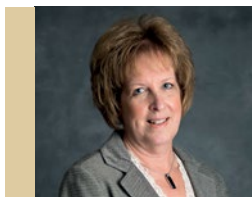

Before the show we ate a private lunch in the beer garden at Butcher & The Boar in Minneapolis. It was a beautiful sunny day and an excellent lunch. Thank you to everyone that spent the day with us!

Announcements

We're pleased to share with you our new F & M Summit Club logo, a fresh look rolling out for the summer season!

The logo was recently updated to align with the bank's new rebranding, and to reflect our group's fun and adventurous spirit.

Despite the change you can expect the same exciting trips and great times!

A Friendly Reminder

Summit Club Trip Cancellation Policy:

If a cancellation is necessary, we will make every effort to provide either a partial or full refund. However, we cannot always guarantee a refund. There may be times refunds will not be possible due to tickets purchased, meal numbers, guarantees, etc. The customer also has the option of trying to find someone to purchase their tickets. If a tour is cancelled due to insufficient reservation numbers, the customer will receive a full refund.

If you missed out on the Travel Show and are still interested in joining us on this amazing trip, stop in or give us a call! Free airfare for this trip is extended thru the month of June 2018. We would love to have you join us!

Rochester Recipes: Poch's Pantry

A Little Slice Of Heaven

What a winter...right? So happy to finally put it behind us! Let's get to summer!

by Brian Poch

This is the time of year for gatherings and picnics. This recipe came to me from a kid in our youth group at church. I have my great job at F & M Bank, but on weekends I have another great job...I serve as organist and choir director at Trinity Lutheran Church in downtown Rochester. Hard to believe I have already served 25 years! Early on at Trinity, I learned how challenging it was to meet people from the church. I knew many people by the back of their heads. Spending most of my time in the balcony makes it challenging to meet the members. My wife Alison and I started hosting bonfires for the congregation on selected Friday nights throughout the summer. We provided the beverages, condiments and the grill...the guests would bring something to grill and something to pass. These Friday nights have taken on a life of their own [r]. The "something to pass" has turned into an all-out food competition. I am still amazed at the spread of food and I know we couldn't go downtown and eat this great! Tim, the kid from the youth group brought these cucumber sandwiches to one of our first bonfires. A hit from the very beginning! He has since moved out of state...I now I continue to make these little gems.

By the way, if you enjoy pipe organ music...I have another little gem for you! Every Tuesday this summer at Trinity Lutheran, we are hosting 12 guest organists to perform a 35 minute organ recital. Each program begins at 12:15 pm, every Tuesday in June, July and August (no program July 3rd). Free parking, located at 222 6th Avenue SW, Rochester, just a few blocks West of Mayo Clinic. For more information, visit www.trinitylutherchurch.org.

"A Little Slice of Heaven" Cucumber Sandwiches

2 cucumbers sliced
2 baguette bread loaves sliced

Mix the following with mixer:

1 package cream cheese (soft)
1 cup mayonnaise
1 packet Hidden Valley Ranch Dressing

Spread on baguette slices, top with cucumber slice and a sprinkle of dill weed! Chill for an hour or so.

As I said, this is a total crowd pleaser. Enjoy your summer!

Chatfield Check-In

by Dan Root

As I'm writing his article, spring is upon us and farmers are very busy trying to get their crops planted and all the other things that go along with farm life [e]. I know I have been very busy trying to get my crops planted and all those things go along with being a part of the F & M team in Chatfield. I have to say, it has been a challenging spring but we have been successful in getting our crops planted. Soon we will be able to row the crops and watch the progress throughout the summer! Then, yes, fall will be here and harvest will start. Okay – I am not wishing the summer away, I just like watching the crops grow and seeing the benefits of all our hard work. With all this said, I hope everyone has been able to plan a summer vacation and you are able to spend some time with your family. We always spend a week in August at a resort on Leach Lake. That has always been a fun week to spend with family and friends; being able to enjoy some time on the water fishing, water skiing, driving around in the boat and relaxing on the beach. Also, in August during Western Days we will have our activities for customers and the community. Please be on the lookout for more information as it becomes available. As I look at my calendar and a calendar of events happening in the area, there are a lot of fun things to do this summer. We in the Chatfield Branch hope you all have a great spring and a wonderful summer and that you're able to spend some time enjoying the outdoors and with your family. If you need anything in regards to your banking needs, please don't hesitate to stop in or give us a call. We are here to assist.

Ready To Be Outdoors....Pizza Anyone?

by Scott Rustad

Over the last year my wife Sharone and I were thinking about ways to improve our experiences on our patio. One thought was to add a wood fire pizza oven and place it next to our fireplace. We knew it would be nice but wondered if it would be used enough to make it worthwhile.

On a Friday night in April we were at Karst Brewery in Fountain. (Awesome place, check it out if you have not been there) They happened to have a vendor serving wood fire pizza. Wow! it seemed like a sign from above. I can now taste some wood fire pizza and see what I think. It turned out to be delicious and that of course convinced me to go ahead with the pizza oven.

A month later we had our pizza oven installed and it was time to begin the process of making pizza. The instructions are to heat the oven up a couple of times prior to cooking pizza [s]. Excited to get started I placed the wood in the oven and started the fire. I watched the temperature gauge on the oven and was surprised how

quick the temperature got to 650 degrees. I opened the door to check the fire and it was obvious I had the wood too close to the front because the flames whipped around the outside of the oven. This of course tainted the stainless steel front. I know this eventually happens but did I have to stain it on the first use! It sure didn't take me long to give the oven a used look. Arghh.

Then came time to make the pizza. It was anticipated to be a fun family event. Our daughter Sierra made her own individual pizza with the toppings she wanted and Sharone made some additional pizzas for everyone else. Sierra was first and handed me her pizza to be put in the oven. As luck would have it, as I was placing the pizza on the stone in the oven, the crust folded over and most of her ingredients fell off. She happened to be watching me and that immediately turned her off. She did not want that pizza. Then on Sierra's second try, I made sure to place the pizza in the oven without any mishaps and I did it!

However this time I burnt the toppings on her pizza and that was not going to work as well. (It doesn't take long to cook pizza at 650 degrees!)

It was a challenge at first to have the crust cooked without burning the toppings and there was some trial and error. As the night went on, we started to get the hang of it but the initial excitement was gone. It was hunger that took over. To end the night, I went to bed early as I felt ill from eating all of the leftover pizza.

Next year if we try to enhance our patio, furniture sounds easier.

The Fillmore Central Baseball Field was dedicated on Saturday, May 19th, to Frank Jaszewski—a long time coach and teacher of the Preston – Fountain School District. Frank (or should he still be called Mr. Jaszewski?) was well-respected (and feared!) by Chuck, Scott, and Dan as well as many others. This recognition is well-deserved because of the positive impact Frank had on so many students and athletes over the many years he coached and taught in the Preston – Fountain School District.

Adam's Story: A PIP Poem

Be Like Adam, Stack Your PIP!

*There once was a motorist named Skip
Driving along with Phillip and Chip
A deer appeared in the road
Hitting Skip's transportation mode
The deer caused the airbag to deploy
And Skip's pickup truck to flip
From their injuries each will recover
But may not be able to work for a bit
How the bills get paid we soon discover
It is each party's no-fault coverage or "PIP"
PIP pays \$500 a week in lost wages - max
Unless you "stack it". What's that you ask?
Come see us and we'll explain why
'stacking' your PIP will keep you from ending up shy.*

It is the phone call that no parent ever wants to receive as was experienced by Brenda in our agency, "Mom, Dad, there's been an accident." We are happy to report that in this case, everyone will recover fully. Along the way, Brenda acquired practical experience with PIP and why you should consider the need to stack or not to stack. We're here to share this knowledge with you.

Matt's Trivia!

by Matt Quanrud

I was watching the KTCB newscast during my lunch hour on May 11th and it was reported on that day 160 years ago in 1858 Minnesota became the 32nd state. Also they reported that Saturday May 12th is one of the most anticipated days in Minnesota. The Walleye fishing opener. Nearly half a million went fishing! Many of those also were moms who went fishing on that weekend also called "Take a Mom Fishing Weekend"! After all of these news tidbits, I decided for this edition's trivia I would focus on the great state of Minnesota with an emphasis on the outdoors.

- Minnesota is continually ranked one of the best states overall to live in. It was ranked second overall in 2017 by US New World & World Report. I believe the outdoor opportunities has something to do with that. I won't mention what state was ranked number 1. Hint, it's our nearest neighbor to the south.

- The Land of 10,000 lakes (actually 11,842 lakes 10 acres and over) makes it a dream for those who enjoy the outdoors! There are 201 Mud lakes, 154 Long Lakes and 123 Rice Lakes. And with all those lakes, Minnesota has more shore line than the states of Hawaii, Florida and California combined. 90,000 miles!

- Minnesota nearly has more boats than cars per family. Well maybe not, but 1 out of every 6 in Minnesota has a boat! I have two boats and one car so I guess I help that ratio.

- Golfing is another outdoor activity that many enjoy even though our season is short. It is reported that more people play golf per capita than any other state in the union! 1 out of every 5 people golf in Minnesota. And did you know that Minnesota is the only state to host all 14 USGA National Championships, the Curtis Cup, the Walker Cup and just recently in 2016 the Ryder Cup? And for future trivia, Hazeltine in Chaska will be the first U.S. golf course to host the Ryder Cup a second time in 2028.

- Did you know that Rollerblades were invented in Minnesota? So for those who love hockey, you can rollerblade in the off season on Minnesota's wonderful outdoor trails.

- And finally, one of my favorite outdoor TV shows is Minnesota Bound hosted by Ron Schara. And did you know that after 23 years and 854 shows Ron and his dog Raven are now stepping down as hosts? Ron is giving the reigns to his daughter Laura Schara and Bill Sherck.

So to all you readers put down your electronics, shut off the TV and no matter the season get outside and enjoy the great outdoors in Minnesota! And more importantly, to quote Ron Schara, "Remember, introduce a kid to the great outdoors!"
